BASIC INFORMATION

Continuous heavy wall and slab climbing with many interesting cross passages. Like the gothic window absolutely recommendable, but not to be underestimated because of the length. Also for the descent you have to calculate the time.

APPROACH

Parking space Musauer Alm

From the Musauer Alm continue in the direction of the Otto-Mayr-Hütte until the path to the Nesselwängler Scharte branches off to the left (30 minutes walk). Follow the path in the direction of the Nesselwängler Scharte until you can cross the path to the entrances (from Abzeig 20 - 30 minutes walk)

DESCENT

From the last stand approx. 40m straight up (hook visible) to a stand. Then climb another 55m up the ridge to a ridge upswing, where the first abseil hook is located. After abseiling twice, it is best to cross down through a channel and up to a ridge on the left (in the direction of descent). There you will find another abseiling ring. Abseil 20m and continue to a striking ridge tower. Behind this tower is the next abseil ring. From there abseil 3 times suspended. The descent is marked, but not easy to find in bad visibility.
